

What is Golf Genius and the SAWGA portal?

This year our SAWGA tournament emails have been sent through Golf Genius tournament management system. We have setup a league portal through Golf Genius. Have you used MyChart or a similar portal program for your health care information, where you can see upcoming appointments, view test results, etc.? The SAWGA portal is similar to a medical portal but allows you to see and manage your SAWGA golf information instead of your health information.

Why should I use the SAWGA portal?

You can quickly and easily sign up to play in upcoming tournaments, see which tournaments are open for signup, and verify or change your playing status with a few clicks. If you forget what you have signed up for, just check the portal!

You can also see your tee times and who you are playing with as soon as the tee sheets are posted. The tee sheets include the players' phone numbers in case you want to contact your playing partners. *(As a reminder, if you do not want your phone number or email to be shared with the other members, please let us know and we'll remove your contact information from the roster).*

You will have immediate access to tournament results as soon as they are final. Click on the results page and you'll see how you and all your friends did.

Perhaps most important, by using the portal to answer many of your questions, you get immediate answers to your questions rather than having to send messages and wait for responses, thereby saving time for you and a great deal of time for the tournament chairs.

How do I register to the SAWGA portal?

When you join SAWGA you are registered into our league roster in Golf Genius. You will receive an email from Golf Genius with instructions to confirm your registration. What happens next depends on whether you previously registered for another league or event through Golf Genius.

Members new to Golf Genius

Click "Confirm Registration" to create a permanent password in Golf Genius. You sign in to Golf Genius using your email and permanent password to access the SAWGA portal.

Members registered to another league or event in Golf Genius

You will receive a confirmation email from Golf Genius that you are registered to the SAWGA portal. The password you use for any other league or event is the password you use to enter the SAWGA portal.

How do I access the SAWGA portal?

Here is the link to our portal - [SAWGA Portal](#). You can copy and paste the link to your browser navigation bar or bookmark it for easy access to the portal. The portal link is also available on the Santa Ana Golf Club website when you navigate to the SAWGA web page under 'Associations'. Visit mynewmexicogolf.com and select the SAWGA web page from the Association drop-down for more details related to SAWGA.

We also include the link to our portal when we send a tournament invitation or a reminder. The link will take you to our portal sign-in page where you will need to enter your email and password.

If you forget your password, use the "forgot your password?" link to reset it. Checking the "Remember Me" box will keep you signed in to our portal on the same device when you log back in the next time.

Note: You cannot access the SAWGA portal through the Golf Genius app.

What happens if I never created a permanent password?

You will still receive our SAWGA emails but you will not be able to access our portal. Golf Genius will still record your response, but if you want to confirm your response you must log into the portal.

Please send an email to LadySAWGA@gmail.com and we'll send you another invitation to complete your registration to our portal.

What if I have more questions or need help?

For any questions or help please contact Sue Chambers at 505-350-6665 or suechambersnm@gmail.com. Please include your name if texting.

Start using the SAWGA portal today!

We encourage everyone to register and start using the SAWGA portal today. The best way to get comfortable with the portal is to click around and explore. You can't break anything! It will truly enhance your league experience and make managing our tournaments much more efficient for everyone.

Happy golfing!
